Prices listed here are average guide-lines. For a personalized quote, please contact us to schedule a free consultation.

A 50% deposit is required to begin a site, with balance due upon completion. Additional costs such as domain name registration & web hosting are not included - suggestions can be offered, but we do not provide these services.

**Updates/Maintenance:** After a site is finished, ongoing changes usually need to be made to reflect changing aspects of your organization, news or events, current itinerary, etc. The frequency & complexity of updates varies dramatically from client to client, therefore charging a standard monthly fee is impractical. Our rate for updates/maintenance is on an "as needed basis" at \$18 per hour billed monthly. Also, please note that we do not accept clients that wish to update their site themselves. This creates inconsistencies that cause the site to look unprofessional. "Too many cooks spoil the soup". :-)

All of our clients' sites are created with a personal touch. Each site we do is completely individual and custom (no templates) to assure that you have a unique identity that fits your image.

Thank you for considering Starbase 7 Publishing!
